CONTENTS

Volume 48 Number 1 January 1991

Medical Laboratory Sciences: statement of editorial policy and full instructions to authors 1–5

ORIGINAL ARTICLES

Lectin binding to normal mucosa, leukoplakia and squamous cell carcinoma of the oral cavity, *D. P. J. May and P. Sloan* 6–18

A whole blood control for blood count analysers, and source material for an external quality assessment scheme, *D. M. Reardon, D. Mack, B. Warner and D. Hutchinson* 19–26

Iron overload: detection using a micromethod for iron-binding capacity, *K. S. Rana, N. Varma and S. Dash* 27–30

Assays for lupus anticoagulant: the sensitivity of different assays, *Alok Jain, Sumitra Dash, N. Marwaha, S. D. Deodhar and S. Sehgal* 31–35

Plasma vitamin B_{12} binding proteins correlate with disease activity in patients with rheumatoid arthritis, *M. A. Sattar and K. C. Das* 36–42

Suspected allergy: a sequential protocol for testing patients' sera, *D. R. G. Walkingshaw and D. O. Ho-Yen* 43–46

Rheumatoid factor quantitation: a comparison of ELISA and nephelometric methods, *A. O. Adebajo, J. K. Wright, T. E. Cawston and B. L. Hazleman* 47–51

Enzyme techniques in blood group serology: the effect of ionic strength, *Ewan J. Campbell and Marion L. Scott* 52–58

ANNOTATIONS

Liquid chromatographic analysis of amino acids in physiological fluids: recent advances, *Roger S. Ersser and John F. Davey* 59–71

EDTA, the traditional anticoagulant of haematology: with increased automation is it time for a review?, *D. M. Reardon, B. Warner and E. A. Trowbridge* 72–75

SHORT COMMUNICATIONS

Detection of cannabinoids in urine: a cost-effective low risk immunoassay procedure, *F. M. L. Moore and D. Simpson* 76–79

Discovery of unsuspected pathological states using a new haematology analyser, *J. X. Corberand, P. F. Laharrague, G. Fillola, J. P. Charlet and J. P. Cambus* 80–83

Human *Xanthine oxidase* antibody levels: variation between males and females in Chinese and Europeans, *W. H. P. Lewis and Y. L. E. Ng* 84–88

THESIS ABSTRACT 89

LETTERS TO THE EDITOR 90

BOOK REVIEWS 93

Volume 48 Number 2 April 1991

EDITORIAL

Keeping up to date, *A. D. Farr* 97–98

ORIGINAL ARTICLES

A rapid test to detect the most clinically significant *Staphylococcus* species, *C. Geary and M. Stevens* 99–105

Detection of *Staphylococcus aureus* in blood cultures: evaluation of a two-hour method, *C. J. Mitchell, C. Geary and M. Stevens* 106–109

Recovery of *Mycoplasma hominis* from blood culture media, *S. Davies and R. Eggington* 110–113

Continuous ambulatory peritoneal dialysis: factors influencing recovery of organisms from effluents, *P. A. Howe and A. P. Fraise* 114–117

Detection of *Chlamydia trachomatis*: comparison of agar-gel precipitin test and enzyme immunoassay, *E. A. O. Irokanulo, C. O. Akueshi and A. A. Makinde* 118–121

Determination of C reactive protein: an evaluation of three methods, *J. Rodgers and R. Bayston* 122–125

Alpha-fetoprotein: a sensitive avidine-biotin assay, *Mala Chakrabarty, Maitrayi Bhattacharyya and Chitra Mandal* 126–133

Platelet indices: intra-individual variation in pre- and post-menopausal females, *John M. Carter, Robert W. L. Siebers and Philip J. Waken* 134–136

Detection of toxoplasma-specific Immunoglobulin-G: assessment of a slide agglutination test, *P. Dunford and Julie Johnson* 137–141

Antibodies to cytomegalovirus, *Herpes simplex* virus and Epstein-Barr virus in Greek blood donors, *L. Kavallierou, E. Bezirtzoglou, P. Kapellou, S. Spanaki and N. Renieri* 142–146

ANNOTATION

Tissue banking: the role of the Regional Blood Centre: an American experience in Minnesota, *D. Steckler and T. Eastlund* 147–154

BIOMEDICAL UPDATE

Cervical cancer, *S. L. Mera* 155–160

SHORT COMMUNICATION

Serum prostatic acid phosphatase activity and prostate specific antigen when the prostate gland is enlarged, *Debra Jenkins, R. T. Jones and A. M. T. Clarke* 161–163

THESIS ABSTRACT 164

LETTERS TO THE EDITOR 165–166

BOOK REVIEWS 167–169

Volume 48 Number 3 July 1991

LEADING ARTICLE

Hepatitis C virus screening: UK Blood Transfusion Service on the threshold, *John A. J. Barbara and Marcela Contreras* 171–174

ORIGINAL ARTICLES

Early detection of lower respiratory tract infection: the value of the Gram-stained sputum smear, *D. Glaister* 175–177

Detection of micro-organisms using a two bottle blood culture system: a twelve month study, *G. S. Temple, S. Oliver and J. A. Wilson* 178–182

The *Limulus* amoebocyte lysate assay for prediction of chlamydial infection in males with non-gonococceal urethritis: an evaluation, *George J. Gianakopoulos and Richard B. Prior* 183–188

Microwave ovens: mapping the electrical field distribution, *Kwan-Hoong Ng* 189–192

Serum 25-hydroxyvitamin D in Wistar rats fed vitamin D deficient or normal diet: effect of ultraviolet irradiation and temperature, *M. S. Devgun* 193–195

The immunological status in Parkinson's disease, *U. Fiszer, K. Piotrowska, J. Korlak and A. Członkowska* 196–200

C-reactive protein levels in serum: a rapid enzyme immunoassay, *W. R. Lamb, P. E. C. Brenchley, K. J. Wood and R. S. Pumphrey* 201–205

Malaria screening to prevent transmission by transfusion: an evaluation of techniques, *N. Choudhury, J. G. Jolly, R. C. Mahajan, N. K. Ganguly, M. L. Dubey and S. K. Agnihotri* 206–211

Blood group chimaerism: a possible further example, *Imelda M. Bromilow and Jennifer K. M. Duguid* 212–216

A computerised spreadsheet for audit of a microbiology laboratory, *P. I. Otter and A. A. Pease* 217–224

BIOMEDICAL UPDATE

Breast cancer, *S. L. Mera* 225–231

SHORT COMMUNICATIONS

Platelet separation from the blood of severely thrombocytopaenic patients, *A. Kazemi and N. B. Westwood* 232–234

Pneumocystis carinii pneumonia: detection of parasites by immunofluorescence based on a monoclonal antibody, *John G. Magee, Kevin J. McDade, Julie Cunningham and Valerie Harrison* 235–237

LETTER TO THE EDITOR 238

BOOK REVIEWS 239–242

Volume 48 Number 4 October 1991

EDITORIAL

The medical laboratory and the environment, *A. D. Farr* 243

ORIGINAL ARTICLES

Human monoclonal antibodies: analysis of two antibodies derived from lymphocytes of a patient with acute rheumatic fever, *E. J. Hughes, Q. Eichbaum and D. W. Beatty* 244–255

Anti-HIV-1: extended validation of a modified gelatin particle agglutination assay, and its use with an image analyser, *M. A. Rodriguez, J. Runganga, M. Contreras, R. Ahya, D. R. Howell and J. A. J. Barbara* 256–260

REVIEW ARTICLES

Multidrug resistance in haematological malignancies, *Xu-Rong Jiang, Marion G. Macey and Adrian C. Newland* 261–270

Mycotoxins in food, *G. Blunden, O. G. Roch, D. J. Rogers, R. D. Coker, N. Bradburn and A. E. John* 271–282

ANNOTATIONS

Aluminium, amyloid, and Alzheimer's disease, *S. L. Mera* 283–295

Bovine spongiform encephalopathy, *J. G. Collee* 296–302

The microbiology of drinking water, *R. J. Lee* 303–313

Public health bacteriology in the 1990s, *B. S. Chessum* 314–316

Radiation: how real are the risks?, *B. Heaton* 317–323

Treatment and disposal of clinical and laboratory waste, *C. H. Collins* 324–331

BIOMEDICAL UPDATE

Immunohaematology, *D. M. Reardon, B. Warner, R. Luddington and D. W. Finch* 332–345

SHORT COMMUNICATION

Haemoglobin in stools from neonates: measurement by a modified Apt-test, *M. Crook* 346–347

THESIS ABSTRACT 348

LETTERS TO THE EDITOR 349–350

BOOK REVIEWS 351–353

SUBJECT AND AUTHOR INDEXES 354–360
